## REGIONAL EMS COMMUNITY INTEGRATED HEALTHCARE PROGRAM MYOCARDIAL INFARCTION (MI) ADMINISTRATIVE ORDER

Use this AO for all participants referred into the CIHP for Myocardial Infarction (MI)

All patients referred in for this condition shall receive the following evaluations on each visit:

- A full set of Vital Signs including temperature, FSBG, and ETCO2
- 3 lead EKG
- 12 lead EKG with initial visit & as needed for subsequent visits
- Weight
- Lung Sounds
- Smoking Cessation information/progress as needed

Follow up with participant on discharge orders to ensure compliance.

Follow up with participant on Cardiac Rehab compliance, if enrolled.

Review discharge 12 lead, with current, and continue to monitor trends.

Provide materials and continue to educate Pt on post MI/CABG care.

## If the Patient condition is stable: Schedule next visit.

If Patient condition is stable, but declining based on trends & assessment: Contact Cardiologist for plan of care. If necessary, schedule office visit and confirm participants access and availability to transportation.

If Patient condition is stable, but declining based on trends & assessment, and Cardiologist office visit unavailable:

Advise, arrange for, or transport patient to Urgent Care facility.

If the Patient is having an acute medical emergency:
Advise dispatch to start an appropriate response to your location, follow up
with the patient to the hospital.
